Regional achievements

The ACIAR Board defines target ranges for research expenditure across the regions in which projects operate. The target ranges reflect regional and country research priorities, the overall aims of Australia's aid program, and ability to deliver results through effective projects across the Asia-Pacific region and beyond. The ranges also allow more flexibility—in project development, implementation timelines and in resource allocation between regions.

Region	Board target*
Papua New Guinea and the Pacific Islands	>20%
Southeast Asia	>45%
North Asia	<15%
South Asia	<15%
Southern Africa	<5%

*During 2004–05 the ACIAR Board of Management redefined these targets.
